MARMO

MANIFESTO

MARMO was born from a fascination with stone and the belief that furniture should feel timeless.

Inspired by natural formations and organic forms, each piece is designed as a balance between sculpture and function. We embrace the character of every material, allowing its texture, depth, and individuality to shape the final object.

Rather than following trends, we create pieces with a quiet presence—objects that bring warmth, permanence, and a sense of calm to the spaces they inhabit.

Designed to endure. Crafted to be lived with.

FOUNDER

Stone has always fascinated me.

It carries a history that cannot be manufactured.
Every vein and imperfection is shaped by time,
making each piece unique.

With MARMO, I explore this timeless material
through both organic forms and pure geometry—
balancing nature and structure, sculpture and
function.

Each piece is an invitation to experience stone in a
new way.

— Ori Levi

"Inspired by architecture, crafted through stone."

A dialogue between stone, light and form.
